TAHITI CRUISE

BORA BORA & THE SOCIETY ISLANDS

Bora Bora

Paul Gauguin CRUISES

Your experience on the renowned, award-winning, 5-star-plus ship, *The Gauguin* will be as carefree as possible. Your all-inclusive fare includes everything from gratuities to beverages to water sports on the marina. In true Polynesian fashion, you can expect gracious hospitality and exquisite attention to detail. *The Gauguin* was designed specifically to enter into the intimate bays and lagoons of French Polynesia and showcase the island's spectacular beauty through panoramic windows and all outside staterooms.

YOUR CRUISE FARE INCLUDES:

- FREE AIR from Los Angeles
- \$100 per person shipboard credit
- State-of-the-art Watersports Marina featuring complimentary snorkel gear, kayaks, windsurfing, and water-skiing
- Complimentary beverages including fine wines, premium spirits, soft drinks, bottled water, coffee and tea throughout the ship
- All onboard gratuities included

The Society Islands are what your daydreams are made of: crystal-clear waters, pristine beaches, and lush mountains that leap almost vertically from turquoise lagoons.

The Professional Education Society invites you to join our CME/CE Seminar for Medical, Dental, Nursing and Allied Healthcare Professionals

TREATMENT CONSIDERATIONS IN ISOLATED COMMUNITIES

PES Mission Statement: Our mission is to provide quality global CME/CE programs for healthcare professionals, catalyzing opportunities for collaboration with national and international colleagues, while fostering cross-cultural perspectives and partnerships in healthcare education and the delivery of quality patient care.

Seminar Overview/Statement of Purpose: Healthcare professionals in North America are currently faced with the challenge of both treating and preventing the ever-increasing incidence of chronic diseases such as Obesity, Diabetes and Cardiovascular disease.

The same holds true for community healthcare practitioners in French Polynesia, with additional budgetary, resource and delivery challenges. They are experiencing similar epidemiological transitions where communicable diseases are decreasing while non-communicable diseases are increasing. Confronting the challenges of providing quality patient care in the face of limited budgets and resources that impact healthcare delivery and access, is fast becoming a global issue for healthcare practitioners.

Now, more than ever, it is important for healthcare professionals to collaborate with colleagues and global counterparts to gain cross-cultural perspectives and updates in the treatment and prevention of disease. By design, this program offers opportunities for medical professionals to compare and contrast current best practices to provide quality patient care and outcomes in their own professional setting.

Planned In Country Healthcare Topics Include:

- Healthcare Delivery in Isolated Communities with Limited Resources: Impact on Medical & Dental Care
- Medicine at Sea: Common Tropical Diseases, Marine Life Hazards & Travelers' Illness
- Emerging Healthcare Issues: Changing Demographics & Chronic Disease Patterns
- Updates in Heart failure, Type 2 Diabetes, Psychopharmacology
- Oral Health: Addressing Dental Diseases
- Impact of Cultural Competency on Quality Patient Care
- Mental Health and Well Being
- Pathophysiology of Pain: A Review

Educational Goals: Our goal is to provide unparalleled CME/CE travel opportunities for healthcare professionals that combine their most passionate destination desires with their educational goals, fostering exceptional learning experiences, friendships and connections with national and international colleagues.

- Assure that healthcare education programs provide best practice models reflecting current issues in medicine and healthcare for providing quality patient care
- Provide professional educational exchanges with international colleagues, healthcare educational organizations and clinics to gain cross-cultural perspectives and updates in the treatment and prevention of disease
- Allow medical/healthcare professionals to compare and contrast current best practices in medical/healthcare delivery to provide quality patient outcomes in their own professional setting

Learning Objectives: Keep abreast of rapid expansion of medical knowledge and current best practice models on multiple topics to facilitate change and thus provide continually excellent patient care.

Continuing Education Recognition Awards offered for healthcare professionals on this PES Program include:

Physicians: Programs are reviewed by the *American Academy of Family Physicians* for a minimum of 14 Prescribed Credit Hours. AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 credit(s) toward the AMA Physician Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

Dentists: The *Professional Education Society* is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The *Professional Education Society* designates this activity for a minimum of 14 continuing education credits.

Nurses: The *Professional Education Society* is approved by the California Board of Registered Nursing, Provider Number CEP 5428, for up to 14 contact hours. Although the California Board of Registered Nursing does not approve individual continuing education courses, providers are required by law to be approved by the Board. Reciprocity for continuing education hours for nurses is available in most states. Please check with your regulation board regarding requirements.

For Other Healthcare Professionals: Certificates of Attendance are issued to all participants attending credit sessions and can be submitted for credit approval to their professional board. In order to receive a Certificate of Attendance, registrants must sign-in, attend the programs and complete a program evaluation.

Tax Deduction: This healthcare seminar has been designed to comply with current IRS convention rules and deductibility requirements under Code Section 274(h)(1) as directly related to the conduct of the attendee's profession and meeting the reasonableness standard of the foreign seminar rules. The formal meetings will be scheduled with lectures and discussions. Seminars in conference rooms, clinics or hospitals will be conducted by in-country speakers as well as distinguished faculty of the Professional Education Society.

Documentation verifying the scheduling dates, locations, hours of attendance, certificate of participation, and appropriate certificate of continuing medical, dental or nursing education will be provided at the completion of the conference. Tax deductible benefits are not guaranteed and we recommend that every attendee should consult with their Tax Consultant about their Individual situation to determine the appropriate amount and reporting of deductible expenses.
