# The Professional Education Society invites you to join our CME/CE Seminar for Medical, Dental, Nursing and Allied Healthcare Professionals Healthcare Perspectives from Down Under

## PES Mission Statement

Our mission is to provide quality global CE/CME programs for healthcare professionals, catalyzing opportunities for collaboration with national and international colleagues, while fostering cross-cultural perspectives and partnerships in healthcare education and the delivery of quality patient care.

## Seminar Overview/Statement of Purpose

Changing population demographics and increasing chronic disease patterns are key factors impacting primary healthcare practice and delivery in the Pacific Rim arena. Confronting the challenges of delivering quality patient care in the face of these emerging changes is fast becoming a global issue for medical practitioners. Healthcare professionals in the US, Australia and New Zealand share these challenges. Community healthcare development in both areas reflects the need to establish new best practice protocols dealing with the increasing longevity of human populations and the growth of geriatric and palliative care needs. In addition, providing better prevention and treatment strategies addressing obesity, diabetes, cardiovascular disease and cancer is a continuing challenge for both areas.

Now, more than ever, it is important for healthcare professionals to collaborate with colleagues and global counterparts to gain cross-cultural perspectives and updates in the treatment and prevention of disease. By design, this program offers opportunities for professionals to compare and contrast current best practices to provide quality patient care and outcomes in their own professional setting.

## Planned In-Country Healthcare Topics Include:

- Changing Demographics & Chronic Disease Patterns in the Pacific: Impact on Healthcare Practice
- From the Aborigines to the Maori: Healthcare Challenges in Indigenous Cultures
- Overview of New Zealand Healthcare System: Challenges and Best Practice Strategies
- From Treatment to Prevention: The Upside from Down Under
- Updates in Travel Medicine and Medicine at Sea
- Treatment & Prevention of Chronic Diseases including Diabetes, Obesity, & Cardiovascular disease
- Updates in Geriatric & Palliative Care for Aging Populations

## Educational Goals

Our goal is to provide unparalleled CE/CME travel opportunities for healthcare professionals that combine their most passionate destination desires with their educational goals, fostering exceptional learning experiences, friendships and connections with national and international colleagues.

- Assure that healthcare education programs provide best practice models reflecting current issues in medicine and healthcare for providing quality patient care
- Provide professional educational exchanges with international colleagues, healthcare educational organizations and clinics to gain cross-cultural perspectives and updates in the treatment and prevention of disease
- Allow medical/healthcare professionals to compare and contrast current best practices in medical/healthcare delivery to provide quality patient outcomes in their own professional setting

## Learning Objectives

Keep abreast of rapid expansion of medical knowledge and current best practice models on multiple topics to facilitate change and thus provide continually excellent patient care.

## Continuing Education Recognition Awards offered for healthcare professionals on this PES Program include:

**Physicians:** Programs are reviewed by the *American Academy of Family Physicians* for a minimum of 18 Prescribed Credit Hours.

**Dentists:** The *Professional Education Society* is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The *Professional Education Society* designates this activity for a minimum of 18 continuing education credits.

**Nurses:** The *Professional Education Society* is approved by the California Board of Registered Nursing, Provider Number CEP 5428, for up to 18 contact hours. Although the California Board of Registered Nursing does not approve individual continuing education courses, providers are required by law to be approved by the Board. Reciprocity for continuing education hours for nurses is available in most states. Please check with your regulation board regarding requirements.

**For Other Healthcare Professionals:** Certificates of Attendance are issued to all participants attending credit sessions and can be submitted for credit approval to their professional board. In order to receive a Certificate of Attendance, registrants must sign-in, attend the programs and complete a program evaluation.

## Tax Deduction

This healthcare seminar has been designed to comply with current IRS convention rules and deductibility requirements under Code Section 274(h)(1) as directly related to the conduct of the attendee's profession and meeting the reasonableness standard of the foreign seminar rules. The formal meetings will be scheduled with lectures and discussions. Seminars in conference rooms, clinics or hospitals will be conducted by in-country speakers as well as distinguished faculty of the *Professional Education Society*.

Documentation verifying the scheduling dates, locations, hours of attendance, certificate of participation, and appropriate certificate of continuing medical, dental or nursing education will be provided at the completion of the conference. Tax deductible benefits are not guaranteed and we recommend that every attendee should consult with their Tax Consultant about their individual situation to determine the appropriate amount and reporting of deductible expenses.
