The Professional Education Society invites you to join our CME/CE Seminar for Medical, Dental, Nursing and Allied Healthcare Professionals Mediterranean History, Healing & Healthcare: *Ancient Wisdom & Modern Cures*

PES Mission Statement: Our mission is to provide quality global CE/CME programs for healthcare professionals, catalyzing opportunities for collaboration with national and international colleagues, while fostering cross-cultural perspectives and partnerships in healthcare education and the delivery of quality patient care.

Seminar Overview/Statement of Purpose

Healthcare practitioners are currently faced with the challenges of both treating and preventing the increasing incidence of chronic illness with a focus on obesity related diabetes and cardiovascular disease. Educating populations on the impact of diet and lifestyle on chronic disease and overall health has become a key area in addressing these global public health concerns.

The Mediterranean is known for the generally good health of its population, in part due to embracing traditional healthy lifestyles and a cuisine that provides health benefits derived from following a Mediterranean diet model. However, like many developed countries, they are challenged with implementing new healthcare reforms within the context of increasing budgetary restrictions and the healthcare demands of a growing aging population if they wish to maintain current healthcare standards. Now, more than ever, it is important for healthcare professionals to collaborate with colleagues and global counterparts to gain cross-cultural perspectives and updates in the treatment and prevention of disease. By design, this program offers opportunities for professionals to compare and contrast current best practices to provide quality patient care and outcomes in their own professional setting.

Planned In-Country Healthcare Topics Include:

- Healthcare Systems Overview
- Treatment and Prevention Strategies for Common Chronic Illnesses (i.e. cardiovascular, diabetes)
- Evaluating the Impact of Diet and Lifestyle on Disease
- Dental Healthcare Updates: Delivery & Treatment
- Top Medical/Disease Issues: Challenges & Conquests
- Updates in Travel Medicine & Medicine at Sea
- Preventive and intervention strategies to improve population health
- Back to the Future: Ancient Wisdom & Modern Cures
- Wellness & Stress Management for Medical Professionals

Educational Goals

Our goal is to provide unparalleled CE/CME travel opportunities for healthcare professionals that combine their most passionate destination desires with their educational goals, fostering exceptional learning experiences, friendships and connections with national and international colleagues.

- Assure that healthcare education programs provide best practice models reflecting current issues in medicine and healthcare for providing quality patient care
- Provide professional educational exchanges with international colleagues, healthcare educational organizations and clinics to gain cross-cultural perspectives and updates in the treatment and prevention of disease
- Allow medical/healthcare professionals to compare and contrast current best practices in medical/healthcare delivery to provide quality patient outcomes in their own professional setting

Learning Objectives

Keep abreast of rapid expansion of medical knowledge and current best practice models on multiple topics to facilitate change and thus provide continually excellent patient care.

Continuing Education Recognition Awards offered for healthcare professionals on this PES Program include:

Physicians: Programs are reviewed by the *American Academy of Family Physicians* for up to a minimum of 12 - 18 Prescribed Credit Hours.

Dentists: The *Professional Education Society* is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The Professional Education Society designates this activity for a minimum of 12 - 18 continuing education credits.

Nurses: The Professional Education Society is approved by the California Board of Registered Nursing, Provider Number CEP 5428, for up to a minimum of 12 - 18 contact hours. Although the California Board of Registered Nursing does not approve individual continuing education courses, providers are required by law to be approved by the Board. Reciprocity for continuing education hours for nurses is available in most states. Please check with your regulation board regarding requirements.

For Other Healthcare Professionals: Certificates of Attendance are issued to all participants attending credit sessions and can be submitted for credit approval to their professional board. In order to receive a Certificate of Attendance, registrants must sign-in, attend the programs and complete a program evaluation.

Tax Deduction: This healthcare seminar has been designed to comply with current IRS convention rules and deductibility requirements under Code Section 274(h)(1) as directly related to the conduct of the attendee's profession and meeting the reasonableness standard of the foreign seminar rules. The formal meetings will be scheduled with lectures and discussions. Seminars in conference rooms, clinics or hospitals will be conducted by in-country speakers as well as distinguished faculty of the Professional Education Society.

Documentation verifying the scheduling dates, locations, hours of attendance, certificate of participation, and appropriate certificate of continuing medical, dental or nursing education will be provided at the completion of the conference. Tax deductible benefits are not guaranteed and we recommend that every attendee should consult with their Tax Consultant about their Individual situation to determine the appropriate amount and reporting of deductible expenses.
