Exploring Healthcare along the Mekong

PES Mission Statement

Our mission is to provide quality global CE/CME programs for healthcare professionals, catalyzing opportunities for collaboration with national and international colleagues, while fostering cross-cultural perspectives and partnerships in healthcare education and the delivery of quality patient care.

Seminar Overview

A recent history of devastating warfare in Cambodia and Vietnam resulted in the disruption of, and in Cambodia's case the complete dismantling of, their healthcare systems. By necessity, these countries have been faced with rebuilding and reforming their healthcare systems and infrastructures to meet the increasingly diversified needs of urban and remote village populations where access to healthcare is limited. The health systems that have emerged combine a public-private provider system, in which the public system plays a key role in health care, especially in policy, prevention, research and training.

Planned In-Country Healthcare Topics Include:

- Impact of War on Disease & Healthcare Systems
- Healthcare Delivery in Isolated Communities: Challenges & Solutions
- Lessons in Healthcare Reform : Starting from Scratch
- Nutrition & Malnutrition: Consequences on Maternal & Child Healthcare
- The Great Irony: Increased Diabetes in Thin Populations
- Facing the Future: Confronting Key Healthcare Issues Along the Mekong

Educational Goals

Our goal is to provide unparalleled CE/CME travel opportunities for healthcare professionals that combine their most passionate destination desires with their educational goals, fostering exceptional learning experiences, friendships and connections with national and international colleagues.

- Assure that healthcare education programs provide best practice models reflecting current issues in medicine and healthcare for providing quality patient care
- Provide professional educational exchanges with international colleagues, healthcare educational organizations and clinics to gain cross-cultural perspectives and updates in the treatment and prevention of disease
- Allow medical/healthcare professionals to compare and contrast current best practices in medical/healthcare delivery to provide quality patient outcomes in their own professional setting

Learning Objectives

Keep abreast of rapid expansion of medical knowledge and current best practice models on multiple topics to facilitate change and thus provide continually excellent patient care.

Continuing Education Recognition Awards offered for healthcare professionals on this PES Program include:

Physicians: Programs are reviewed by the *American Academy of Family Physicians* for a minimum of 15 Prescribed Credit Hours.

Dentists: The *Professional Education Society* is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The *Professional Education Society* designates this activity for a minimum of 15 continuing education credits.

Nurses: The *Professional Education Society* is approved by the California Board of Registered Nursing, Provider Number CEP 5428, for up to 15 contact hours. Although the California Board of Registered Nursing does not approve individual continuing education courses, providers are required by law to be approved by the Board. Reciprocity for continuing education hours for nurses is available in most states. Please check with your regulation board regarding requirements.

For Other Healthcare Professionals: Certificates of Attendance are issued to all participants attending credit sessions and can be submitted for credit approval to their professional board. In order to receive a Certificate of Attendance, registrants must sign-in, attend the programs and complete a program evaluation.

Tax Deduction

This healthcare seminar has been designed to comply with current IRS convention rules and deductibility requirements under Code Section 274(h)(1) as directly related to the conduct of the attendee's profession and meeting the reasonableness standard of the foreign seminar rules. The formal meetings will be scheduled with lectures and discussions. Seminars in conference rooms, clinics or hospitals will be conducted by in-country speakers as well as distinguished faculty of the Professional Education Society.

Documentation verifying the scheduling dates, locations, hours of attendance, certificate of participation, and appropriate certificate of continuing medical, dental or nursing education will be provided at the completion of the conference. Tax deductible benefits are not guaranteed and we recommend that every attendee should consult with their Tax Consultant about their Individual situation to determine the appropriate amount and reporting of deductible expenses.
