# New Zealand & Australia Discovery

## Custom Land Program Down Under

### January 10 – 26, 2020

Auckland | Rotorua | Queenstown | Melbourne | Ayers Rock | Cairns | Sydney

Join PES on an exclusive 14-night custom land program showcasing the vast wonders of the Down Under! Marvel at the spectacular and diverse scenery, wildlife, and native cultures of New Zealand & Australia

#### Custom Land Program Highlights:

- Discover a moment of magic on a boat ride through the **glowworm grotto in Waitomo**, marvel at gigantic stalactites and stalagmites in this network of underground caverns
- Explore **Rotorua**, a center of Maori culture as well as a geothermal wonderland with hot springs, bubbling mud pools, and geysers
- Explore local vineyards, a historic mining town, and take a thrilling jet ride through the Shotover River Canyon in **Queenstown**, set on the shores of a pristine lake and surrounded by alpine mountains
- Explore the cosmopolitan city of **Melbourne**, often dubbed the most 'European' of Australian cities and recognized for world-class street art, restaurants and bars
- Visit **Phillip Island** to see the nightly ritual of the beloved fairy penguins waddling from the ocean to their burrows in the sand
- Journey to the Outback and see **Ayers Rock**, a massive sandstone rock formation and a sacred site to the indigenous Australians
- Discover where Australia begins at **Tjapukai Aboriginal Cultural Park** and experience the rich and ancient cultures unique to Australia's Aboriginal and Torres Strait Islander people
- Swim alongside fascinating marine wildlife at the **Great Barrier Reef**
- Uncover **Sydney** on a city tour, stop at the famous **Bondi Beach**, and views of the iconic **Opera House and Harbour Bridge** from a lunch cruise in Sydney Harbor

## HEALTHCARE PERSPECTIVES FROM DOWN UNDER

**PES Mission Statement:** Our mission is to provide quality global CME/CE programs for healthcare professionals, catalyzing opportunities for collaboration with national and international colleagues, while fostering cross-cultural perspectives and partnerships in healthcare education and the delivery of quality patient care.

### Seminar Overview/Statement of Purpose:

PES is fortunate to have dental and medical practitioners representing a variety of specialties participating in the CME/CE sessions. PES understands the importance of offering inter-professional healthcare education, allowing colleagues to gain cross-specialty perspectives and updates in the treatment and prevention of disease. The need to adapt best practice models in the context of emerging healthcare reforms impacting patient care delivery and access to care is an important issue for all healthcare practitioners.

Changing population demographics and increasing chronic disease patterns are key factors impacting primary healthcare practice and delivery in the Pacific Rim area. Confronting the challenges of delivering quality patient care in the face of these emerging changes is fast becoming a global issue for medical practitioners. Family Practice physicians in the US, Australia and New Zealand share these challenges. Community healthcare development in both areas reflects the need to establish new best practice protocols dealing with the increasing longevity of human populations and the growth of geriatric and palliative care needs. In addition, providing better prevention and treatment strategies addressing obesity, diabetes, cardiovascular disease and cancer is a continuing challenge for both areas.

Now, more than ever, it is important for medical professionals to collaborate with colleagues and global counterparts to gain cross-cultural perspectives and updates in the treatment and prevention of disease. By design, this program offers opportunities for professionals to compare and contrast current best practices to provide quality patient care and outcomes in their own professional setting.

### Planned Healthcare Topics Include:

- Changing Demographics & Chronic Disease Patterns in the Pacific: Impact on Healthcare Practice
- From the Aborigines to the Maori: Healthcare Demands in Indigenous Cultures
- From Treatment to Prevention: The Upside from Down Under
- Overview of the Healthcare Systems of New Zealand & Australia
- Emerging Medical & Dental Issues: Treatment & Prevention
- Medical/Dental Focus of Preventative Care
- Updates in Medicine and Dentistry

**Educational Goals:** To provide unparalleled CME/CE travel opportunities for healthcare professionals that combine their most passionate destination desires with their educational goals, fostering exceptional learning experiences, friendships and connections with national and international colleagues.

- Conduct educational healthcare programs to learn about best practice models reflecting current approaches in medicine and healthcare across different cultures for providing quality patient outcomes
- Provide professional educational exchanges with international colleagues, healthcare educational organizations and clinics to gain cross-cultural perspectives and updates in the treatment and prevention of disease
- Allow medical/healthcare professionals to compare and contrast current best practices in medical/healthcare delivery to provide quality patient outcomes in their own professional setting

**Learning Objectives:** Keep abreast of rapid expansion of medical knowledge and current best practice models on multiple topics to facilitate change and thus provide continually excellent patient care. By design, this program permits medical experts to collaborate with colleagues and international counterparts to realize cross cultural view points and updates within the treatment and prevention of disease and offers opportunities to compare and contrast current best practices to supply quality patient care and outcomes in their own professional setting

### Continuing Education Recognition Awards offered for healthcare professionals on this PES Program include:

**Physicians:** Programs are reviewed by the *American Academy of Family Physicians* for up to 15 Prescribed Credit Hours. AAFP Prescribed credit is accepted by the American Medical Association as equivalent to AMA PRA Category 1 credit(s) toward the AMA Physician Recognition Award. When applying for the AMA PRA, Prescribed credit earned must be reported as Prescribed, not as Category 1.

**Dentists:** The *Professional Education Society* is an ADA CERP Recognized Provider.

ADA CERP is a service of the American Dental Association to assist dental professionals in identifying quality providers of dental education. ADA CERP does not approve or endorse individual courses or instructors, nor does it imply acceptance of credit hours by boards of dentistry.

The *Professional Education Society* designates this activity for up to 15 continuing education credits.

**Nurses:** The *Professional Education Society* is approved by the California Board of Registered Nursing, Provider Number CEP 5428, for up to 15 contact hours. Although the California Board of Registered Nursing does not approve individual continuing education courses, providers are required by law to be approved by the Board. Reciprocity for continuing education hours for nurses is available in most states. Please check with your regulation board regarding requirements.

**For Other Healthcare Professionals:** Certificates of Attendance are issued to all participants attending credit sessions and can be submitted for credit approval to their professional board. To receive a Certificate of Attendance, registrants must sign-in, attend the programs and complete a program evaluation.

**Tax Deduction:** This healthcare seminar has been designed to comply with current IRS convention rules and deductibility requirements under Code Section 274(h)(1) as directly related to the conduct of the attendee's profession and meeting the reasonableness standard of the foreign seminar rules. The formal meetings will be scheduled with lectures and discussions. Seminars in conference rooms, clinics or hospitals will be conducted by in-country speakers as well as distinguished faculty of the Professional Education Society.

Documentation verifying the scheduling dates, locations, hours of attendance, certificate of participation, and appropriate certificate of continuing medical, dental or nursing education will be provided at the completion of the conference. Tax deductible benefits are not guaranteed, and we recommend that every attendee should consult with their Tax Consultant about their Individual situation to determine the appropriate amount and reporting of deductible expenses.
